NORTHFIELD, MASSACHUSETTS

Year

DICKINSON
MEMORIAL LIBRARY
NORTHFIELD, MASS.

ANNUAL REPORT
OF THE
SELECTMEN, OVERSEERS OF POOR,
AND ASSESSORS
OF THE
Town of Northfield
TOGETHER WITH THE REPORTS OF THE
SCHOOL COMMITTEE,
LIBRARY COMMITTEE
AND
TOWN TREASURER,
AND THE
VALUATION LIST,
For the Year Ending March 31st, 1888.

TURNERS FALLS, MASS.:

PRINTED BY CECIL T. BAGNALL, PROPRIETOR OF REPORTER.
1888.

DICKINSON
MEMORIAL LIBRARY
NORFELDE, MASS.
JAN 11 1888

TOWN WARRANT.

ART. 1. To choose a Moderator to preside over said meeting.

ART. 2. To choose all necessary Town Officers for the year ensuing.

ART. 3. To hear the report of the Selectmen, Overseers of the Poor, Auditors, School Committee, Assessors and Library Committee, and act thereon.

ART. 4. To raise such sums of money as may be necessary to defray Town expenses for the ensuing year, and make such appropriations of same.

ART. 5. To see if the Town will vote to License the sale of intoxicating liquors for one year from May 1st, 1888. The vote to be on separate ballots, and to be "Yes" or "No".

ART. 6. To see if the Town will vote a sufficient sum of money to build $\frac{1}{4}$ of Millers River bridge and appropriate for same.

ART. 7. To see if the Town will vote to build a school house in district 7, or act thereon.

ART. 8. To see if the Town will raise and appropriate six hundred dollars for a higher grade of public school or act thereon.

ART. 9. To hear the report of the Selectmen on the jury list, or act thereon.

ART. 10. To see if the town will vote fifty (50) dollars for Decoration Day and appropriate same.

ART. 11. To see if the Town will authorize the Town Treasurer to borrow such sums of money as may be necessary to pay necessary expenses for the year ensuing, or act thereon.

ART. 12. To see if the Town will change the day of its annual meeting.

ART. 13. To see if the Town will buy a farm for its poor, or act thereon.

ART. 14. To see how the Town will care for the Highways and Bridges.

ART. 15. To raise such sums of money for the Library and act thereon.

ART. 16. To see if the Town will pay B. F. Streeter the sum of ten dollars for damage from Highway, or act thereon.

ART. 17. To see if the Town will pay a discount on taxes for the ensuing year, or act thereon.

ART. 18. To see if the Town will name the streets in village not named, or act thereon.

To the Voters and Citizens of Northfield :

Having deferred the Report of the Selectmen to a later date than has been customary heretofore and by a vote of the town , we have been enabled to give a true and correct account of the liabilities of the town which you will find in the financial condition of the town. We have had all bills against the town presented and orders drawn for same to April 2, which takes in all the snow bills from Feb. 15, '87, which were quite large, but nothing compared with the great snow storm of last month, which we have placed in our financial report, as there were so many that had come in for payment that we concluded not to be at the expense of printing the same. We have made a contract with Mr. Osro Doolittle for three years for care of Town Poor, including clothing and Dr's bills, for \$2.25 per week. We would say that the expenses of poor could be greatly lessened by having a farm for their support as it would take off most of the outside poor. We have also placed in our report the expense of the new road, as well as the land damage for same. We made out to have it completed in time voted by the town although put to some trouble by one of the so called advocates for the road, when petitioned to build same. The town has now to defend an action for damage and trespass which will not be very heavy in expense when the rights of the case are shown up. We should have kept within our appropriations for highways, but owing to the heavy rains last summer the roads and bridges were heavily damaged so that we have used more than was appropriated for same. We have had to put in several new bridges which were unsafe and have replaced a number of plank culverts with stone. We think it would be wise policy for the town to have a road commissioner of good judgment to take the roads in the town and see to the repairs, as by so doing we could have better roads at a less expense. We have also inclosed our valuation for the past year at the request of a large number of tax-payers, as well as our Town Warrant.

In presenting our report of the condition of the public schools to the citizens of the town, we take much pleasure in being able to report a prosperous year, as a good degree of progress has been made in all, and in some the advancement has been rapid and excellent. The schools have been running with but very little friction and, if we clearly understand the situation, with quite a degree of satisfaction. There have been, out of the town's appropriation 31 weeks of school in seven of the nine buildings and, on the mountain Nos. 5 and 6 have had 20 and 25 weeks respectively. School No. 4, located at the South Farms, having funds of its own at disposal, was continued one week longer and school No. 2, through the generosity of Mr. D. L. Moody, who kindly offered to contribute the funds, was continued for four. Eight of the nine schools have been under the management of the same teacher the entire year, and we cannot overlook the fact that these eight have met with a greater degree of both success and satisfaction than the more unfortunate other, which has had two different teachers, and both good ones. It is a well established fact that a fair teacher continued throughout the year can accomplish more and will be apt in the end to benefit pupils quite as much as a succession of extra teachers of perhaps even higher training, and it ought to be remembered—we are sorry to make allusion to this oft repeated charge—that a frequent change of teachers is a most serious drawback to the progress and efficiency of any school: a fair teacher once installed better be retained than run the even risk of securing a better one; nearly every teacher has plans, or should have, that cannot be successfully carried out in one term of a few weeks, and by changing, a new teacher, with different methods, pays but little attention or regard to what has been done, and again it takes nearly one term for a teacher to learn the disposition, character as well as requirements with whom she has to deal and instruct. We have in our judgment been quite fortunate in the selection of our corps

of teachers the past year, having endeavored to select only such as were well recommended and were thought likely to prove to be in every respect industrious as well as qualified to incite the powers and habits of thinking and it might also well be added, that it has been our aim in ministering to your school affairs to keep in mind the public welfare as well as the rights of our citizens who are so largely interested in the trust which the committee have in charge. It is a wish that our labors might be more clearly understood ; that the people with a better knowledge of our doings might be able to judge more fairly, and we might also add, more justly, whether the board had faithfully discharged their work or not. It seems quite needless to dwell at any length upon the vast importance of our public schools, as that would occupy a space which has been gone over so many times by our ablest minds a country affords, and it is impossible that any citizen of intelligence ignores the subject and yet there is existing, in certain quarters, a strange feeling of indifference. In some instances they do not visit the schools ; they do not sympathize with or encourage the teachers ; they are faultfinding in regard to school books and are too apt to form their opinions concerning the qualifications and success of teachers from the quickly uttered opinion of their children alone. Is this the right course to pursue ? We think not. Is it not the parent's duty when a child enters school, to yield him to the authority of the school, expecting him to fulfill the duties imposed upon him and also to be subject to the rewards and punishments ? It is a curious and well noted fact in our experience that those who find the most fault with teachers are quite often parties who take the least pains to ascertain the real condition of things and we might also say never or rarely ever visit a school. To what extent ought such a party to make complaint of either schools or teachers ? More times, we fear, than even the average citizen of our town is aware, is some member of your committee called upon to investigate a complaint of prodigious magnitude, brought by some such party

which turns out to be as empty as any vacuum. That our doings in every case have given perfect satisfaction is too much to expect, and we can only say that we have worked unitedly and harmoniously and with but one purpose in view—to make our schools if not successful, as near so as possible. The attendance of most of the schools has been up to that of average years. The work in Nos. 7, 9 and 3, has been quite badly interrupted with a bad or irregular attendance caused by much sickness and hence unavoidable. We have still reason to believe considerable irregular attendance is caused by indifference on the part of parents. This is evident from the fact that the registers, from the two mountain schools, where scholars have in many instances long distances to travel, make a much better showing in this respect than some others taken from other schools. Parents ought to attach more importance to this great evil of a successful school. Your committee the past year have made a more than usual exertion to overcome this and are pleased to say have met with some degrees of success. The matter concerning truants and absentees from school was brought before the town at the August meeting, a code of by-laws presented which were adopted, but we were afterward refused admission to the Hampden county truant school on the ground that they could accommodate no more. Truant officers were appointed but no cases of truancy are known to your committee, however. We have in addition notified the parents of absentees by printed slips, who were absent three or more sessions without a reasonable excuse. It ought to be remembered by all parents and guardians that the law explicitly states that every parent and guardian shall give his children, at least, twenty weeks of schooling during the year, and that parents who do not conform are liable to the penalty. We, however, trust that no parent will, during the ensuing year, oblige the committee to enforce a law that would be so unpleasant to all, through either indifference or neglect. In visiting schools, it has been a pleasure to note much improvement in teaching as well as in

scholars. Teachers' better knowledge has given in many instances, a better realization of scholars' wants ; better methods of teaching have been suggested, and some have improved from contact with other teachers or from visiting other schools. Some four or five scholars residing in the western part of the town were schooled in Bernardston, the distance to No. 7 being too great. This, however, was done at a very reasonable rate and none were badly inconvenienced. Only one change has been made in text books the past year, and our present books are quite satisfactory, excepting, perhaps, the arithmetics. By an act of the committee last August, the old history was changed for something more attractive, which has given almost universal satisfaction. We feel that our teachers' desks are hardly as well supplied with books of reference as they ought to be, but since the law went into effect requiring towns to furnish text books and supplies, the demand upon us has been almost surprising. We feel the free text book system discourages habits of neatness, when scholars are given soiled and half-worn books, and besides, when scholars owned the books they were at home for study during vacation, but now they cannot be taken home vacations, as it would require a detective of no small calibre to again restore them.

Two hundred dollars was appropriated last year for repairs, which was soon expended in making the repairs we thought needed. The School buildings are most of them in very good repair, though some things need to be done in all. The house in No. 3 was reseated the past year, taking a large share of our appropriation and making one of the most pleasant rooms in town. An appropriation was made at the last August meeting to provide a new furnace for School building No. 1, which was purchased and put in. A storm door has also been added to this building. Some small repairs were necessary in No. 2, and No. 9 was put in a more attractive condition inside, last spring. The new bell has been purchased for No. 4, and placed in position. This building needs a coat of paint badly,

and will without doubt be attended to the coming season. The building the West side of the river below Stephen G. Wildes' formerly known as District No. 13, has recently been sold by your committee, after being on our hands some two years, for \$125.

We have presented in connection with this report, a summary of statistics in relation to our schools the past year, to which we call your careful attention, as much knowledge concerning our school work is embodied in them. Again we call attention to the fact that our schools in the centre might be much improved by establishing another school: a necessity seemingly exists for a change in the arrangement. There ought to be in justice to our older scholars and all children who attend these schools, a graded school of three departments, viz: primary, intermediate and grammar.

In conclusion we would recommend there be appropriated the ensuing year for schools, \$2,200; for repairs on school buildings, \$200; for books and supplies, \$300; for a conveyance fund to be used at the committee's discretion, \$100.

The number of volumes circulated the past year, was 4200, and the number of families taking books 162. Owing to the number of transient families who have taken catalogues and availed themselves of the privileges of the library, the number of catalogues has become exhausted. Your committee would recommend the appropriation of a sum sufficient to re-catalogue, this summer. They would also recommend that the Northfield Farms library be made a branch of the village library, so that it may take books, subject to such arrangements as may be agreed upon by the committees. This could be done with no injury to the library, and would enable the Farms' people to receive benefits that distance now prevents. In purchasing books the past year, your committee used the appropriation for new books, in changing the old American Encyclopedias for new ones, at a cost of \$70.00, and buying the Cyclopedia of American Biography, six volumes, \$30.00. Three volumes of this last yet remain to be published. These books have been taken from the library very much of the time, notwithstanding they are not catalogued. The importance of a reading room connected with the library needs no further suggestion from your committee.
